OKUDA SAN MIGUEL

Biografia

Óscar San Miguel Erice (Santander, 1980) resideix a Madrid des de l'any 2000. És llicenciat en Belles arts per la Universitat Complutense de Madrid. Des dels seus inicis l'any 1997, els seus treballs en vies i fàbriques abandonades de Santander van ser clarament recognoscibles. Des de l'any 2009 la seva obra aconsegueix una major maduresa i un camí més personal. Les estructures geomètriques i estampats multicolors es fusionen amb cossos grisos i formes orgàniques. Aquestes obres podrien catalogar-se com a surrealisme Pop amb una clara essència del carrer. Els treballs sovint plantegen contradiccions sobre l'existencialisme, l'univers, l'infinit, el sentit de la vida, la falsa llibertat del capitalisme, i mostren un clar conflicte entre la modernitat i les arrels.
